

**NEW
PRODUCT**

PRODUCT ADVANTAGES

- Vertical and Horizontal applications
- Meets NEC 2011 "Extra Duty" rating for hinge strength and impact performance
- Preassembled wasp guards
- Snap in adapter plates included for GFCI, duplex, and single receptacles
- Key-hole, or box mounting
- Lockable cover

MATERIALS

- Die cast Aluminum
- Neoprene gasket
- Plastic inserts

TECHNICAL SPECS

- UL listed
- US patent # 6,133,531

METAL WHILE IN USE COVER

Sigma's new line of Metal While In Use Covers (WIUC) are engineered to handle the abuses of harsh environments. The robust design is constructed from heavy duty die cast metal and surpasses NEC's 2011 'Extra Duty' rating for the greatest hinge strength and impact performance. The product offering includes one and two gang models which easily adapt for the most common outlet configurations. These products are ideal for commercial and industrial applications which require long lasting, durable protection at an affordable price.

Two Gang

Single Gang

Can be mounted horizontally or vertically

GFCI Insert

Duplex Insert

Round Insert
